TurboBox® mini

External PCI Express Enclosure

The TurboBox-mini™ NA221A is a compact external PCI Express enclosure for ease-of-adding a PCI Express Card to a laptop or desktop computer. The portable form factor of NA221A is designed with a PCIe x16 connector and double width space that allow users to install their single or double width standard height PCI Express card into the light stylish yet durable aluminum case for well protection, and then users can simply attach the PCI Express card to a laptop through ExpressCard34 and cable or to a low profile PC through PCIe host card and cable package.

The TurboBox-mini™ NA221A provides a dedicated power supply and individual cooling system that are ideal for those PCI Express cards requiring heavy power consumption and better cooling environment such as capture cards, Audio cards or Graphic cards for Video/Audio professionals and Gaming users who work with their Laptop or Desktop PC.

Features

· Supports One PCI-Express Card with maximum double width space
· High-strength Aluminum housing with light and compact features
· Dedicated Power Supply and Cooling System
· Laptop ExpressCard34 & Desktop PCI-Express Host Adapter supported
· Easy Installation and No Driver Requirement
